

Patent for solar telecom integrated cabinet inverter

Overview

A cabinet for a solar power inverter is described. To cool the inverter equipment, an air inlet receives ambient air drawn into the cabinet by an. Embodiments of the present disclosure are generally directed to a cabinet for a solar power inverter, including a hood positioned at a highest point of the cabinet. comprising: a power conditioning circuit mounted on a circuit board, the power conditioning circuit having a dc power input (56) References Cited to receive dc power from one or more photovoltaic panels. Tangible IP is pleased to represent Dr. Rajiv Varma's pioneering work highlighting technologies relevant to Solar Photovoltaic (PV) Inverters. The portfolio consists of 4 patent families including 24 patents assets in total (20 granted- 4 pending), 10 issued US patents along with 10 granted foreign.

Patent for solar telecom integrated cabinet inverter

[Patents Assigned to Schneider Electric Solar Inverters USA, Inc.](#)

The converter is a utility interactive inverter which does not require an isolation transformer at the electric power grid interface. Embodiments of the invention include methods of detecting and ...
