

Photovoltaic bracket accessories procurement contract

Overview

The enclosed technical template language is intended to provide only example language for agencies to consider in the process of assembling a solicitation and ultimately a contract for privately financed on site solar photovoltaic (PV) systems. This document has been published with the support of Andy Walker, Otto VanGeet, Tom Harris and Chandra Shah of the National Renewable Energy Laboratory (NREL). It represents a consensus around one possible approach to solar finance, with a particular emphasis to achieve the greatest annual dollar savings. A solar RFP outlines the photovoltaic (PV) product or service requirements, the contract terms and conditions, and provides a thorough understanding of the proposed PV project. Visit the site to conduct a site assessment and determine the final content of any.
