

Photovoltaic bracket installed on the roof of the house

- | | | | |
|---|---------------------------|----|---------------------------|
| 1 | PCS Module | 6 | OPV2 side circuit breaker |
| 2 | Battery room | 7 | High Volt Box |
| 3 | Grid side circuit breaker | 8 | BAT side circuit breaker |
| 4 | Load side circuit breaker | 9 | LCD display screen |
| 5 | OPV1 side circuit breaker | 10 | MPPT |

Overview

Solar panel roof mounts are specialized hardware systems used to attach solar panels to the roof securely. Solar panels can't be put on a roof without first having mounting brackets installed. The solar panels are shielded from the elements by the mounting and solar racking system, which can. Professional Installation is Critical for Safety and Warranties: Solar panel mounting involves working at dangerous heights with structural modifications that can void warranties if done incorrectly. Professional installation typically includes 5-25 year warranties and ensures compliance with 2025. Install a mounting system for solar thermal or solar photovoltaic panels.
