

Photovoltaic panel dealers make money

Overview

Solar dealers make money by selling solar panels and systems to homeowners and businesses. Solar salesmen typically earn a commission on each sale they make, which is typically 10% of the total sale. Some leasing programs generate regular income by charging their customers a monthly bill, which includes the cost of the panel installation and any extra power the customers are using from the grid. In addition, customers tend to pay the retail rate upfront for their panels and appropriate labour. It may seem like the solar companies that sell and install solar panels for you aren't gaining any profit but that is not the case. How do solar photovoltaic companies make money?

1. They typically earn a commission on each sale they make.
