

Photovoltaic panel disassembly machine

Overview

In the field of solar panel disassembly, several key machines play crucial roles. Here, we will introduce three kind: Solar Panel Deframing Machine, Photovoltaic Panel Glass Removal Machine and Dust Removal Equipment. By integrating frame separation, junction box removal, significantly enhancing production throughput and automation levels. Through automation or semi automation, it quickly and accurately separates the photovoltaic panel from the metal frame, improves recycling efficiency, and. Make solar panel recycling more efficient and high-quality. Our equipment realizes no metal residue and breakage on the glass after separation. Separates glass and cell/EVA sheet without breaking glass using our original technology, Hot Knife Separation Method. And whether. Semi-automatic PV panel deframing machine is an advanced equipment designed for the disassembly of waste photovoltaic modules.
