

Photovoltaic panel export countries

Overview

The ranking below reflects that concentration: China dominates, while the next tier is mainly India, the United States, and Southeast Asian export hubs. Note: IEA PVPS reports smaller producers grouped as Europe (aggregate) and Other countries (aggregate) in its country-share. Solar PV products are a significant export for China. In 2021, the value of China's solar PV exports was over USD 30 billion, almost 7% of China's trade surplus over the last five years. 2 terawatts as of the end of 2024. Between 2025 and 2029, global solar photovoltaic capacity additions are projected to increase yearly and range from some 655 gigawatts in 2025 to 930. Exports of solar power and wind power products totaled a combined US\$100. China stands out as the largest exporter, significantly influencing global market trends. Those. Photovoltaic module import shipments by country, 2024 Imports at the national level are published in Table 6.

Photovoltaic panel export countries

[Global solar PV supply chain](#)

Discover all statistics and data on Global solar PV supply chain now on statista !

[Where are solar panels mainly exported? . NenPower](#)

The primary destinations for solar panel exports include China, the United States, Germany, Japan, and India, which collectively dominate the global solar panel trade.

[Executive summary - Solar PV Global Supply Chains](#)

Solar PV Global Supply Chains - Analysis and key findings. A report by the International Energy Agency.

[2024 Monthly Solar Photovoltaic Module Shipments Report](#)

Table 8. Destination of photovoltaic module export shipments, 2024 Exports at the national level are published in Table 6. Destination country is not published to protect individual company data.

[Which countries are solar panels exported to? .. NenPower](#)

While China, the United States, and India dominate solar panel exports, several emerging markets are gaining attention. Countries in Africa, particularly sub-Saharan nations, are recognizing ...

China's Solar PV Exports

The latest monthly solar PV export data from the world's largest exporter, China, by country or region of destination.

[Where Are Solar Panels Made? Complete 2025 Global Manufacturing ...](#)

This comprehensive guide will take you through the complete picture of solar panel manufacturing in 2025, from raw material sourcing to final assembly, helping you understand the ...

[International trade in products related to green energy](#)

This article presents an overview of the EU's international trade in three key product groups: wind turbines, solar panels, and liquid biofuels. It compares these categories, traces their developments ...

[Top 10 Countries Leading Solar Panel Production 2025](#)

The ranking below reflects that concentration: China dominates, while the next tier is mainly India, the United States, and Southeast Asian export hubs. Note: IEA PVPS reports smaller ...

[Top Solar Power and Wind Power Exports by Country](#)

The 5 most lucrative exporters of solar power products are mainland China, Vietnam, Malaysia, Germany and Japan. By value, that quintet of leading exporters earned nearly three-quarters ...
