

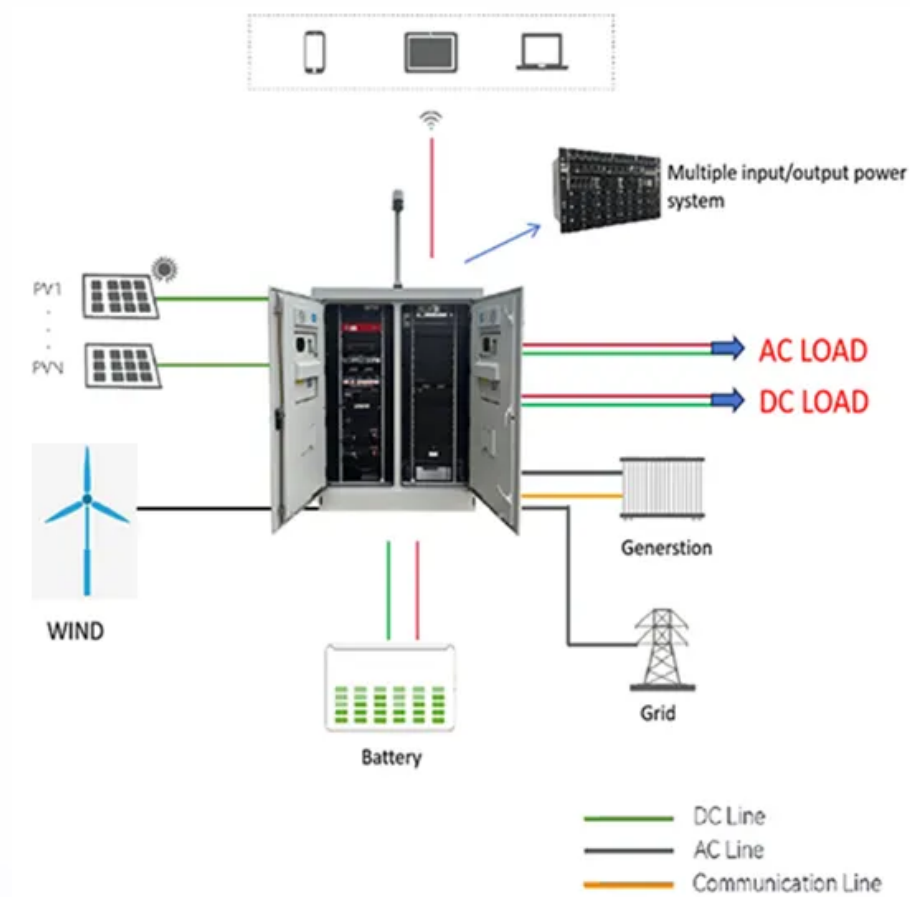

Photovoltaic panel fixing accessories

Overview

Steel and aluminium solar panel structures, anchors and accessories for simple component organisation, assembly and maintenance. The fixings for solar panels have a very clear purpose: to support the photovoltaic panels by means of a firm and resistant anchorage capable of withstanding any environmental circumstance. They are a fundamental part in defining the orientation of the structures and all of them are manufactured.

ROOF MOUNTED SOLAR ARRAY - Solar panels are laid on top of these mounting rails and held firmly in place with clamps from wind and any other shaking. Perfect connection between PV modules, module and rail, rail and roofing and building structure.

MID AND END CLAMPS FOR SOLAR. CABLOWIND® is the brand new product which further enriches the range of accessories proposed by Sun Ballast and which combines two distinct functions in a single element: Channel, which allows the correct accommodation of the cables, and additional ballast, to ensure further stability for the wind. We offer all essential solar PV fixing sale items, including the most commonly used equipment for securing solar panels to rails and mounting systems. Each accessory is critical in.
