

Photovoltaic panel installation warranty period

Overview

A standard solar panel warranty should come with at least 10 years of protection, though many premium options now offer 25 or even 30+ years of coverage. Most solar panel warranties won't reimburse for labor costs associated with installing new equipment or shipping fees for. While solar energy systems are built to withstand decades of outdoor use, the right warranty coverage assures extra peace of mind by protecting your investment against potential malfunctions, damage, or underperformance. Typically lasting 10 to 25 years, it assures customers that the PV panels will meet specified standards. They come in two main varieties—equipment warranties and production warranties—and both can save you quite a lot of money in the long run. The duration of contractor warranties can vary.
