

Photovoltaic panel with USB charging cable

Overview

A USB solar panel is a portable solar-powered device designed to charge small electronic devices via USB ports. Check each product page for other buying options. Need help?

. Experience the power of the sun with our ultra-portable 30-Watt solar panel, designed to keep your devices charged during any adventure, from backpacking to camping. With fast-charging USB-A, PD 24-Watt USB-C, and DC ports, you can quickly power up your phones, tablets, and even small power. USB port solar panels offer a convenient and eco-friendly method for powering devices on the go, appealing to outdoor enthusiasts, travelers, and those seeking energy independence. Selecting the optimal panel, however, requires careful consideration of factors such as efficiency, durability. Compatible: The Dzees 5W solar panel is compatible with DC 5V rechargeable battery cameras with USB-C ports, not plug-in cameras. Note: Incompatible with all devices that do not have a built-in battery!!! IP65 Waterproof: IP65 weather resistance and dust-proof.
