

# Photovoltaic support palletizing machine manufacturer

## Overview

---

PVpallet builds reusable, purpose-built packaging for solar modules, trackers, and BOS components. Our solar module pallets and collapsible bulk bins are engineered for real jobsite conditions—reducing waste, cutting breakage, and improving logistics from transport to installation. Automatically sorts modules based on bin information, compatible with all mainstream module types and packing methods—including vertical packing of both standard and glass-glass modules. Easy and flexible to operate via teach. Shanghai SIHUA Precision Machinery Co. Machine includes two models: short frame stacking and long frame stacking. BW Packaging is a global leader in palletizing equipment, offering a full range of conventional and robotic solutions designed to meet the demands of modern packaging environments. With more than 500 systems installed in over 13 countries, our palletizers are trusted by manufacturers across. Double-in-roll c-shaped steel photovoltaic bracket is mainly applicable to the ground photovoltaic power station and concrete flat-roof photovoltaic power station.
