

Romania off-grid energy storage

Overview

Romania aims to stabilize its grid with a massive investment. Private company MASS Group Holding plans to invest over €1 billion (~\$1.18 billion) in large-scale battery energy storage projects in Romania after reaching an agreement with the Romanian government, Reuters reported on Wednesday. The projects are intended to support Romania's power grid as. Mass Global Energy Rom has announced a new strategic investment of approximately €1 billion in Battery Energy Storage System (BESS) capacities, bringing its total commitment to the Romanian energy sector to over €2. What. Romania is increasingly recognizing the crucial role of energy storage in supporting renewable generation, grid stability, and energy security.
