

Scalable Discount for Foldable Containers for Oil Platforms

Overview

By replacing traditional single-use packaging with durable, reusable alternatives like Hoppers, IBC totes, Drums, and Collapsible Bulk Containers, oil companies can streamline operations, reduce waste, and position themselves as leaders in innovation and sustainability. COLLAPSECON is the next evolution of shipping containers - a fully automated collapsible container that will improve operational efficiencies, deliver economic savings and reduce environmental impact across the supply chain, all without requiring a fundamental change to the industry or global. The world's first 5-in-1 40' high cube shipping container that will revolutionize the intermodal shipping industry by providing significant cost benefits, improving empty container repositioning efficiencies, and lowering harmful CO₂ emissions. A collapsed bundle of five SeaFold 40' containers. These containers, typically exceeding 1,000 liters in capacity, are designed for efficient storage, transportation, and handling of bulk goods across various industries including logistics, manufacturing, retail, and agriculture. A foldable shipping container saves up to 75% of the cost associated with empty containers. We are calling all shippers and shipping lines to take responsibility and start saving CO₂ with 4FOLD now Without action the shipping industry will account for 10% of.
