

Scrape off the frosted layer of photovoltaic panels

Overview

For manual removal, you can utilize a soft-bristled broom or a solar energy rake to gently clear ice from the surface of your solar structures. This method is an effective way to remove snow from solar panels. Solar panels are designed to withstand significant weather challenges. And when snow does become a problem, the easiest way to automatically remove snow on solar panels isn't a rake or a gadget; it's smart. Snow accumulation on photovoltaic panels presents a temporary obstacle to residential energy generation. Use this quick checklist to decide whether solar panel snow removal is worth doing. Solar panel snow removal is most useful when snow is likely to sit on the array.
