

Slovenia three-phase inverter

Overview

The X3-NEO-LV supports parallel on-grid and off-grid operation—up to 3 units. Its microgrid and generator compatibility ensures seamless integration across various energy environments, while the 36A DC input per MPPT maximizes compatibility with high-power solar panels. It delivers up to 200% PV. PVM PLUS is third generation off-grid inverter with rich new functions. Battery charging current, AC/solar charger priority, and acceptable input voltage based on different applications. This new monitoring platform will empower you like never before. Slovenia's renewable energy adoption rate increased by 28% between 2020-2023, driven by government incentives and rising electricity costs. IP66 protection & C5 anti-corrosion rating .
