

Solar Photovoltaic Power Generation Apprentice

Overview

SEIA developed this page as resource for solar employers looking to explore, develop, or participate in registered apprenticeship programs. Registered Apprenticeship Programs (RAPs) are paid jobs that prepare workers for careers while meeting the needs of businesses for a highly skilled workforce.

Recognizing this growing need, the U. Department of Labor (DOL) has officially approved national guidelines for Registered Apprenticeship programs in the solar industry, developed by the Interstate Renewable Energy Council (IREC) and the Solar Energy Industries Association (SEIA). What are the benefits of an apprenticeship program?

Apprenticeships bring many benefits to both job seekers and. The newly approved Guidelines align Department of Labor-approved occupations with the needs of solar employers and provide a template that companies, educational institutions, associations, and labor unions can use to create high-quality apprenticeship programs. Apprenticeship programs offer many. Then you may be a good fit for Job Corps' Solar Photovoltaic (PV) Technician, Pre-Apprentice training program. That means your hands-on training will be based on industry.
