

Solar Power System Evaluation Company

Overview

We are an independent third-party quality control provider, trusted by over 50,000 clients worldwide, and experts in overseas and local inspections in the solar industry. Physical Quality Inspections of PV Modules, Inverters, MMS and other Solar components and Solar Power Plant. As renewable energy continues to grow, McHale & Associates has consistently delivered customized engineering, consulting, modeling, pro forma creation, and performance testing for the solar market for over a decade. Moreover, our expertise across energy sectors makes us a leader in this transition. We offer a comprehensive portfolio of independent technical advisory, testing, inspection, certification and software services to the solar energy. However, harnessing, generating and distributing solar power requires a high level of technology and significant financial investment. SGS offers assessment, verification, testing and support services throughout the entire life of solar energy projects, from the conceptual phase to design. From PV Modules and System Components to Solar Thermal and proving Bankability, Intertek is your comprehensive source for all photovoltaic Quality Assurance, testing, inspection, and certification needs.

Solar Power System Evaluation Company

Third-Party Verification

Discover whether or not your solar investment is performing as promised with objective, third-party photovoltaic system audits. At APC Solar, we quality test every turnkey solar project sold to our ...

Solar PV Consulting

NV5 works with clients to evaluate the options that best fit the client's needs. We perform detailed tariff and energy modeling to determine optimal project sizing and identify funding mechanisms available ...

[Solar Energy Technical Advisory Services](#)

Leverage our independent technical advisory, certification, testing and inspection services tailored to the solar energy industry.

[McHale Solar Plant Testing & Consulting](#)

McHale & Associates can assist you in assessing the financial, ...

[Independent Engineering - PVinsight](#)

Our Independent Engineering (IE) services for solar projects thoroughly evaluate your project to guarantee its success. We help streamline several aspects of the project, such as site assessment, ...

[Solar Energy: Full Project Lifecycle Services , SGS](#)

SGS offers assessment, verification, testing and support services throughout the entire life of solar energy projects, from the conceptual phase to design, manufacturing of solar panels, transportation, ...

[McHale Solar Plant Testing & Consulting](#)

McHale & Associates can assist you in assessing the financial, technical, and operational aspects of your solar energy projects. Specifically, the goal is to determine the value, performance, ...

[Solar Quality Inspection and Control Services](#)

We are an independent third-party quality control provider, trusted by over 50,000 clients worldwide, and experts in overseas and local inspections in the solar industry. Physical Quality Inspections of PV ...

[Solar Testing & Photovoltaic \(PV\) Systems](#)

From PV Modules and System Components to Solar Thermal and proving Bankability, Intertek is your comprehensive source for all photovoltaic Quality Assurance, testing, inspection, and certification ...

[Solar Energy Consulting Services , Partner ESI](#)

Solar Consulting Partner has key competency in solar consulting and engineering services. We work with clients across the country, providing full-service due diligence services, from ...

[Solar Panel System Inspection Services](#)

A certified solar installer and maintenance company, Palmetto's experienced solar panel technicians will conduct a thorough evaluation -- including your panels, inverters, electrical system and wiring -- ...
