

Solar inverter industry restrictions

Overview

Out of cybersecurity concerns, members of the European Parliament have urged the European Commission to restrict Chinese solar inverter manufacturers from accessing the EU's energy infrastructure. A major change is coming for commercial solar projects — and it could determine whether your company qualifies for the federal 30% Investment Tax Credit (ITC) for solar or loses it entirely. Starting Janu, new Foreign Entity of Concern (FEOC) rules take effect. “The integration of critical grid technologies, such as utility-scale solar and battery inverters, sourced from foreign. Solar photovoltaic (PV) manufacturing involves making a wide variety of products and materials across several manufacturing steps, often done in different locations. In the United States, there are two leading types of solar panels: cadmium telluride (CdTe) and crystalline silicon (c-Si). In an open letter to Executive Vice-President Vera Jourová and Energy and.
