

Solar power generation cost and price

Overview

The average cost of solar panels ranges from \$2.50 per watt installed, with most homeowners paying between \$15,000 and \$35,000 for a complete system before incentives. Department of Energy (DOE) Solar Energy Technologies Office (SETO) and its national laboratory partners analyze cost data for U.S. solar photovoltaic (PV) systems to develop cost benchmarks. These benchmarks help measure progress toward goals for reducing solar electricity costs. Historic Low Pricing: Solar costs have reached unprecedented lows in 2025, with systems ranging from \$2. Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in. How much do solar panels cost on average?

As of 2026, the average cost of residential solar panels in the U.S.
