

Somalia industrial and commercial solar energy storage

Overview

The project involves the design, supply, installation, testing, and commissioning of a 10 MW solar photovoltaic (PV) plant integrated with a 20 MWh battery energy storage system (BESS) and a 33 kV evacuation line. The deadline for applications is Feb. Somalia's Ministry of Energy and Water Resources. Somalia's Ministry of Energy and Water Resources has launched a significant tender for a large-scale hybrid solar and battery energy storage project in northeastern Somalia. They have begun to diversify energy sources, building small to medium-sized solar energy systems interfaced with the regular diesel power systems. (Photo Credit: Beco) The Ministry of Energy and Water Resources in Somalia has invited eligible bidders to build a hybrid 55 MW AC.
