

South African energy storage power station investment project

Overview

This landmark development is Eskom's first BESS project to be owned, operated, and maintained by Eskom itself, representing a R7.5 billion investment in South Africa's energy future. Skaapvlei, one of the flagship sites, ranks among the top five largest BESS facilities in the. CAPE TOWN, 27 June 2025: Globeleq, a leading independent power company in Africa, together with its project partner, African Rainbow Energy, announced that they have reached commercial close on the 153 MW/612 MWh Red Sands battery energy storage project (Red Sands BESS) in South Africa, by signing. Delivering Eskom's first large-scale battery energy storage project — strengthening resilience, sustainability, and communities. Globeleq is. Global energy storage capacity was estimated to have reached 36,735MW by the end of 2022 and is forecasted to grow to 353,880MW by 2030.

South African energy storage power station investment project

[Helping to shape South Africa's energy transition](#)

A historic step toward energy resilience South Africa's power system has long faced challenges of demand, reliability, and integration of renewables. The BESS project represents a landmark step in ...
