

South Sudan Solar Water Pump

South Sudan Solar Water Pump

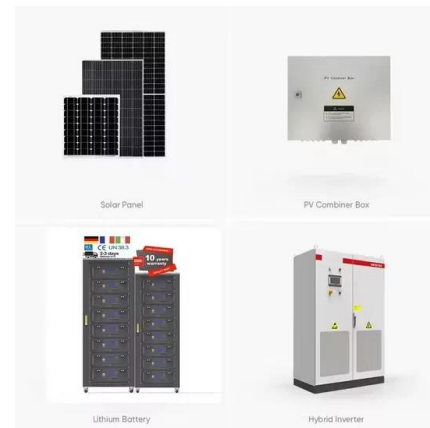

[The Impact: Water Storage and Distribution Systems](#)

That's why Water for South Sudan (WFSS) began constructing solar-powered water storage and distribution systems in 2021--a powerful upgrade from traditional hand pumps that ...

[In South Sudan, off-grid communities turn to solar power for clean](#)

A solar-powered water system in Yambio has transformed water access for children and families in the remote town. By using solar energy, the system pumps treated water from a borehole ...

[Water systems built by Concern preventing spread of cholera in South](#)

Concern Worldwide has built new solar-powered water systems in South Sudan which are preventing the spread of cholera amid a major outbreak. Over 465 people have died from the ...

[Powering Sustainable Agriculture in South Sudan: Aptech Africa's ...](#)

Aptech Africa South Sudan continues to drive sustainable development through innovative renewable energy solutions, with the successful installation of a solar-powered water ...

[Solar-powered water systems bring hope to South Sudan's climate](#)

Clean, accessible water in South Sudan means more than just hydration - it's a safeguard against disease, a key to food security, and a foundation for development. Over 41,000 ...

[Rainmaker Solar Powered Water Pumps](#)

To address the issue of water scarcity, the Rainmaker Organization for Sustainable Development installed solar-powered water pumps and sensor-driven drip irrigation systems in ...

[IBSA Fund: Scaling Solar Irrigation for Climate-Resilient Agriculture](#)

In a major step toward climate-resilient agriculture, smallholder farmers in South Sudan are gaining access to clean, affordable energy for irrigation -- thanks to a South-South cooperation ...

[Aptech Africa Solar PV System and Solar Water Pump Installation in ...](#)

In an inspiring move towards sustainable development and community empowerment, Aptech Africa - Juba has successfully designed, supplied and installed a solar PV system and a ...

[South Sudan: Solar water pump to boost water access in Juba](#)

Leveraging the abundant sunlight that bathes the region, the solar pump harnesses renewable energy to extract water from boreholes, providing a reliable and cost-effective water supply.
