

South korea off-grid solar energy storage cabinet waterproof type

Overview

Extreme weather: The protection level of the integrated cabinet is IP55, which can resist strong winds, dust and waterproof, and adapt to the environment of -20°C~60°C. Electrical safety: with overload, short circuit, leakage protection and lightning protection and grounding design. These improvements increase the. A: The integrated module integrates photovoltaic power generation, energy storage battery, smart inverter and energy management (EMS), which is suitable for medium and high energy consumption scenarios such as industrial and commercial use.
