

Spanish emergency energy storage power supply procurement

Overview

Spain's ministry for the ecological transition said on Monday it has provisionally awarded EUR 839.4m in funds to 143 energy storage projects that will add about 2. The incentive scheme, known as PINALM, is co-financed. In this report, we delve into the developments in the regulatory framework of the Spanish electricity system and explore the potential of Spain's battery energy storage systems (BESS) market. Andalusia, Galicia and Castilla-La Mancha concentrate the majority of the funds. The resulting capacity market would be expected to be operational in 2026. Historically, the market valuation has expanded at a compound annual growth rate (CAGR) of approximately 8-10%.
