

Tehran solar Tile Products

Overview

Tehran solar tile manufacturers are reshaping urban energy landscapes by combining architectural aesthetics with renewable power generation. What Makes. The four products of the NEW ROOF line are the same as shape, size and mounting system; they offer the designer the perfect blend of architectural integration and solar energy production (thermal and / or photovoltaic). They are particularly suitable for inclusion in historic centers or in areas. Iran is a world-leading producer and exporter of ceramic tiles. In recent years it has become one of the top five tile-producing countries globally. Thanks to abundant raw materials and modern factories, Iran's annual tile output has reached the hundreds of millions of square meters.
