

Three-phase photovoltaic containers for port use

Overview

Imagine having a solar power plant that fits inside a shipping container. That's exactly what photovoltaic (PV) plus container systems offer – modular, scalable energy solutions for mines, farms, and disaster relief operations. Fluctuations in power generation can be a problem for grid stability, in Hospitals, Airports. The semi-mobile solar solution for your 6 months to 10 years projects. It not only transports the PV equipment, but can also be deployed on site. Due to its construction, our solar. Upgrade your shipping container home or office with a solar power kit and make the transition to off the grid living effortless! This system is designed to easily connect all your essential appliances (air-conditioners, computers, lights, microwaves and more). It's equipped with a 3000 watt power.
