

Tunisia solar Module Project

Overview

A 132MW solar PV project from French renewables company Voltalia has been selected by the Tunisian government for construction. Located in the Gabès region in south-east Tunisia, construction for the Wadi solar PV project will begin in 2027 with commissioning scheduled for 2028. The Wadi project is situated near the 139MW Menzel Habib solar project, which Voltalia acquired. The Tunisian government says concession and authorization frameworks are advancing multiple PV projects, while new entrants including SoleCrypt plan additional plants, boosting capacity, self-generation, and panel imports. From pv magazine France After years of delays, Tunisia is accelerating. Voltalia, an international renewable energy company, announced on Thursday, Jan.
