

# What is the price of assembling photovoltaic panels

## Overview

---

Solar panel installation cost averages \$27,181 for a standard home, with most homeowners spending between \$18,351 and \$36,409. Prices vary based on system size, panel type, and installation complexity. Your actual cost depends on your home's energy needs, roof characteristics, location and other factors, all of which we'll break down in. NLR analyzes the total costs associated with installing photovoltaic (PV) systems for residential rooftop, commercial rooftop, and utility-scale ground-mount systems. NLR's PV cost benchmarking work uses a bottom-up. Installing solar panels costs \$2. Always check for available incentives or tax credits, which can significantly reduce your out-of-pocket costs. Where you live, the number of panels you need, maintenance requirements, and available rebates all determine the final price. In this article, we'll explore: Do solar panels really save you money?

As always, our goal is to empower you.
