

Which telecommunications company in South Africa has the most base stations

Overview

Huawei reveals more than 2 800 of its 5G base stations have been deployed in South Africa, to date. South Africa's biggest JSE-listed telecommunications companies have a combined value of over half a trillion rand. Which companies are leading the charge in South Africa's telecom space?

. The mobile connectivity market in South Africa is dominated by four cellular providers; Vodacom, MTN, Cell C, and Telkom [2][3] Smaller mobile providers include Rain, as well as numerous MVNOs, like Melon, FNB Connect, Standard Bank Connect, and PnP Mobile. These vendors are Ericsson, Huawei, Nokia, and ZTE. Plus 4G/5G-oriented Rain and former nationwide carrier Cell C, both are following unconventional strategies.
