

# **Xingheng Power enters photovoltaic energy storage**

## Overview

---

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been connected to the grid in Ngari Prefecture, southwest China's Xizang Autonomous Region. On the morning of April 10, in the Sino-Suzhou-Chuzhou High-tech Zone, the construction of the 4GWh lithium-ion battery project of Xingheng Power Supply (Chuzhou) officially kicked off. The total investment of the project is as high as 1.83 billion yuan, and it is expected to be completed by the end of the year. Xingheng energy storage battery is increasingly recognized for its innovative technology and robust performance in the energy storage sector. The company has positioned itself strategically in both domestic and international markets.

## Xingheng Power enters photovoltaic energy storage

---

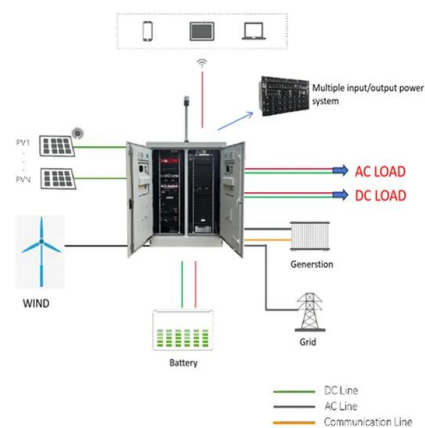

### [Across China: Pioneering energy storage system lights up](#)

The world's first intelligent grid-forming photovoltaic and energy storage power station, tailored for ultra-high altitudes, low-temperatures and weak-grid scenarios, has been connected to ...

### [Xingheng Power Supply annual output of 4GWh lithium battery project](#)

On the morning of Ap, in the Sino-Suzhou-Chuzhou High-tech Zone, the construction of the 4GWh lithium-ion battery project of Xingheng Power Supply (Chuzhou) officially ...

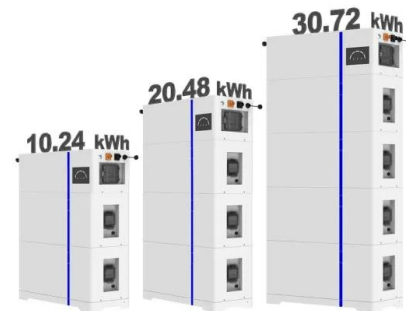

### [ELECTRIC VEHICLE LITHIUM BATTERY\\_NEW NATIONAL ...](#)

By 2023, Phylion lithium batteries are exported to 30 countries and regions, such as Germany and France, and the cumulative sales of power lithium batteries exceed 28 million units, leading the world ...

### [China completes world's largest vanadium flow battery plant](#)

A giant solar-plus-vanadium flow battery project in Xinjiang has completed construction, marking a milestone in China's pursuit of long-duration, utility-scale energy storage.
