

**You can get money back if you
install photovoltaic panels**

Overview

Solar rebates directly lower what you pay for solar by providing cash back after (or sometimes before) your installation. Unlike tax credits that reduce what you owe on your tax bill, rebates put money back in your pocket or reduce your upfront costs. The Residential Clean Energy Credit equals 30% of the costs of new, qualified clean energy property for your home installed anytime from 2022 through Decem. You may also benefit from state tax incentives. (Use EnergySage's solar calculator to estimate when you'd. Did you know there are generous tax incentives for Americans looking to install solar panels on their home?

The most common solar tax incentive is called the Investment Tax Credit (ITC). For more insight into the complexities of seemingly free solar panel offers, you. The 30% solar tax credit expires this year — can you still claim it?

Switch to solar with a system built for you. Join over 8,000 people who received a free, no obligation quote in the last 30 days. State and local governments also offer tax credits and exemptions to complement the federal credit.

You can get money back if you install photovoltaic panels
